

NUUSBRIEF VAN DIE HOUTWERKVERENIGING VAN PRETORIA

Tambotie

NEWSLETTER OF THE WOODWORKING ASSOCIATION OF PRETORIA

Desember 2009

December 2009

www.ptawoodworkers.com

Redaksioneel

20 Jaar / 20 Years

Dit is moeilik om te dink dat ons vereniging reeds 20jaar lank bestaan. In hierdie tyd het ons sommer baie goeie vriende gemaak en geleentheid gehad om baie van mekaar te leer. Sover was die lekkerste wat 'n mens kon ervaar die kameraderie wat tussen ons lede heers. Daar was baie min konflik, en waar dit wel voorgekom het is dit telkens heel beskaafd opgelos. The willingness to help each other must be one of the most outstanding characteristics of this association. Everyone seems to be geared towards assisting fellow woodworkers, be it with advice, help in getting a difficult task done or to donate some of his precious wood to finish a specific task. In this respect it is furthermore very clear that this willingness to help has been instrumental in improving the skills of our members. The best example of this must be the turners group, where the skills of everyone have benefitted from the guidance and help that came from those who initially knew a bit more than the rest. All these people grew by collaborating and taking part in the efforts to get turning standards up. At this stage we have quite a number of turners who could hold their own in any company.

Die sukses van die draaiers is iets waarop ons almal, met reg, baie trots kan wees. Die ander dissiplines, soos speelgoedmaak, meubelmaak en restourasie het nie heeltemal agterweë gebly nie. Die standaard van die meubels en speelgoed wat gemaak word is van hoogstaande gehalte. Die algemene gevoel is egter dat ons moontlik 'n groter deelname aan die "ander" dissiplines moet kry.

Oor die afgelope jaar het ons verskeie geleenthede gehad om die 20 ste bestaansjaar van die vereniging te gedenk. Behalwe vir die normale inhoud van die *Tambotie* gaan ons so 'n paar aspekte uit die verlede en spesifiek hierdie jaar uitlig ter viering van ons suksesse van die verlede. We do hope that our past successes will contribute to a renewed drive to maintain and improve on these standards. We furthermore wish that all will work towards expanding our membership, and in so doing, get the spirit of the association on an ever better footing.

Om hierdie deel mee af te sluit wil ek eerstens hulde bring aan al die vorige voorsitters en komitees. Julle mense het een en almal bygedra om te verseker dat ons altyd kon uitsien na

goeie aanbiedings, besoeke, praatjies en wenke oor hoe om ons stokperdjie beter te bedryf. Secondly to all our members, you are the heart and soul of the association. Never quit in being positive with your advice and criticism. We need each other to make a comparable success of the years to come.

Contents

Due to the fact that this edition is a bit “*special*”, it will be necessary to give a vague indication as to where specific items can be found;

- **Normal activities:** 2 –8
- **Exhibition 2009:** 8- 12
- **Great woodworkers:** 12-13
- **Next year** 13 -14

Normal Activities

Program vir die res van 2009

By die skryf van hierdie uitgawe is daar slegs die maandvergadering en natuurlik die jaareindfunksie wat nog voltooi moet word.

However, I want ask all of you to pay serious attention to what is being said in “**Next year**”.

Die jaareindfunksie sal weer, soos verlede jaar, by die Universiteit van Pretoria se proefplaas plaasvind. Die datum is Saterdag, 12 Desember 2009, om 18h00. The format is a bring and braai. The association will supply the fires. This is an occasion for the whole family, and it would thus be appreciated if we will pitch up in large numbers! Bring folding chairs as it may be handy if you prefer to sit inside the building. (A street map is included)

Previous meeting

In this edition we have to look at the last two meetings, as we did not produce a real **Tambo** for October.

Our October meeting started with the handing out of the various trophies that were won at our exhibition. (*The exhibition itself will be covered a bit later on- Ed*)

Hierdie jaar se winners van ons toekennings was die volgende:

- **Daan Badenhorst-Trofee** (Beste item by die uitstalling), **Executool-Trofee**(Beste meubelstuk) – is beide deur Steyn Grove gewen.
- **Die Phil Irons-Trofee:** Is deur Andrew Bourke gewen.
- **Aanhouer Wen-trofee** – is deur Carel van der Merwe gewen.

Benewens hierdie trofee is daar ook ‘n hele aantal sertifikate, goud, silwer en brons, aan van die ander uitstallers uitgereik.

Steyn Grove receiving the prizes for his wonderful table.

Andrew Bourke receiving the Phil Irons Trophy for the best turned item.

(Carel van der Merwe was away and could not personally receive the Aanhouer Wen Trophy)

After the handing out ceremony, we had an interesting talk on saw blades in general but more specifically on band saws. This talk was given by Bob Stacey from WEKA. The main points that impressed me were the following:

- The teeth of a band saw blade must at all times be in front of the side guides to prevent the teeth from being squeezed out of their setting.
- The side guides should be as close as possible to the blade, without actually touching the blade.
- Check that the wheel bearings do not have any play on them.
- The blade must be tracked in the middle of the wheel (tyre)
- One should play around with the tension of the blade to determine what works best for the specific machine and with specific blades.
- Also experiment with different speeds to get the best possible results.

- When not in use, take the tension off the blade.
- Pretoria Tool Centre is a supplier of all the WEKA blades etc.

Bob left a summary of his lecture for members to take home. Should anybody require a copy, kindly contact the editor.

We then had an interesting discussion, by Ronnie Karlson of *Mirka*, the manufacturers of *Abranet*. Ronnie was here on a visit all the way from **Jeppo in Finland** where all their products are being manufactured. Our members, especially the turners, have been using these products for a long time. However, the discussion remained very informative as well as entertaining due to the fact that we got some insight into the life of the Fins as well! Quite a bit of new information of this super abrasives were given and at the end we could help ourselves to some samples. This handout was really appreciated, especially by those of us who use these regularly.

The chairman presenting Ronnie with a turned pen to remember us by.

This was once again a very informative evening.

For our November meeting, we had an old member of our association, namely Hans Kretchmer, who gave a very entertaining, yet highly informative, talk on how to overcome the trauma of having to move to a smaller (retirement) place to live. Hans made it clear that all of us will most probably retain a desire to work wood no matter what. When he encountered the dilemma that he no longer had the space or place to work, he came up with a very practical solution, namely to convert a container into a practical workshop. His training as an engineer served him well to come up with unique solutions for unique problems. Hans het gewys dat ‘n man kan as hy wil. Na die bespreking van sy werkplek se uitleg, en gepaardgaande aspekte, het Hans sommige van sy unieke produkte aan ons gewys. Hy het ook genoem hoe ‘n mens met jou houtwerk kan geld maak. (*Veral as jy die vaardigheid en sin vir ontwerp het as wat die geval met Hans is- Red*) As ‘n mens die innoverende denke en praktiese oplossings van hierdie man gade slaan kan ‘n mens nie anders as om jammer te wees dat Hans nie meer ‘n lid van ons vereniging kan wees nie. Sommige van Hans se werk word hier getoon;

Look at the excellent use of beautiful grain pattern when making this box.

A very presentable (and sellable) carving knife.

Een van die kenmerkende kistsies wat deur Hans gemaak word.

VAN DIE BESTUUR

Die Oktober bydrae vanaf die Bestuur was reeds klaar toe ons Redakteur laat weet het dat hy vir November ‘n feesuitgawe van **Tambotie** publiseer en dat ons bydrae maar moet wag en aangepas word sodat dit by die feesuitgawe pas. Ons sien uit na die beloofde uitgawe.

Al het ons die Oktober uitgawe van **Tambotie** oorgeslaan en slegs oor ons uitstalling gerapporteer tydens ons Oktober vergadering moet ‘n mens nogtans dit ook hier meld sodat dit vir die toekoms en ons argief “op rekord” geplaas kan word. Die Bestuur bedank graag

almal wat vrywillig ingespring en gehelp het om die uitstalling 'n groot sukses te maak. Was dit nie vir hierdie bykomende hulp nie sou die Bestuur maar gesukkel het om reg te kom.

Die feit dat ons hierdie jaar ongeveer 'n honderd meer besoekers as verlede jaar gehad het is onder andere daaraan te danke dat ons vooraf heelwat publisiteit gemaak en gekry het. Die geskatte besoekertal van 540 sluit ook nie kinders in nie. Dan het ons ook meegeding met twee groot rugbywedstryde en 'n reën bui later die middag. Teen elfuur die oggend was daar soveel besoekers dat die saal amper te warm en bedompig was maar sonder uitsondering was daar groot komplimente vir die gehalte van die items op uitstalling.

Die bydraes deur ons lede wat as pryse (raffle) geskenk is het ook daartoe bygedra dat daar 'n netto wins van meer as R3 000 was. As in ag geneem word dat die totale waarde van die pryse meer as R6 000 was dan het die prysweners sekerlik rede gehad om te glimlag.

The contribution from Hardware Center from Randburg who organised the presence of the different manufactures of tools and machines can also not be underestimated. Even the Editor of The Home Handyman, Johann Stadler, who had a small desk where one could subscribe to the magazine mentioned that he was more than satisfied with the results.

On page 52 of the December/January 2009 issue of The Home Handyman there is also a brief report and a few pictures of our October exhibition.

Our November meeting had Hans Kretchmer with a presentation on a compact workshop. It was an inspiration to learn how he converted a shipping container into a fully functional workshop due to the fact that he had no place to work at the retirement resort where he moved to. This was indeed the case of "n

boer maak 'n plan" and that where there is a will there is a way.

Ons November vergadering was ook die laaste vir die jaar en ons herhaal graag ons wense vir 'n Geseënde Kersfees en 'n Voorspoedige Nuwe Jaar aan al ons lede en hulle families. Mag ons almal weer veilig terugkom indien ons op vakansie gaan en uitgerus wees vir 'n wonderlike houtwerk 2010 vol produktiewe houtskaafsels.

Hierdie bydrae is ook my laaste aangesien ek nie volgende jaar op die Bestuur sal dien nie. Ek bedank hiermee graag die lede van die Bestuur en ander lede wat my deurentyd ondersteun het en vir elkeen se waardevolle bydrae om die afgelope jaar 'n sukses te maak.

Anton Louwrens

Voorsitter

Draaiers se hoekie

In Oktober het die draaiers op 'n Saterdagoggend by Leon Langenhoven se werkplek vergader. Hierdie geleentheid was, soos altyd met sulke Saterdag sessies die geval is, weer eens groot pret waar 'n mens sommer baie in 'n kort tydjie kon leer. Weens rugby, of wat ookal, was daar nie 'n groot getal draaiers wat bygewoon het nie, dog dit het gemaak dat meer mense "hands on" ervaring op 'n groot draaibank, en met 'n groot stuk hout op die koop toe, kon kry!

In November het die draaiers by Willie de Wet 'n draai gemaak. Die vergadering was nogal goed bygewoon- seker omdat baie van ons nuuskierig was om te sien hoe die **Stubby** (enig in sy soort in Suid- Afrika) daar uitsien. Tydens hierdie vergadering het dit eerstens aan die lig gekom dat twee van ons spesiale lede in hierdie maand verjaar. Hulle is spesiaal aangesien hulle die oudstes van ons

vereniging is, dog beide is steeds lekker aktief met hul bywoning en selfs die werk wat gedoen word. Ons wil dan ook langs hierdie weg vir Buks Welgemoed (81), en Bokkie Lotz (83) baie geluk sê met hul verjaardae. Ons hoop dat julle nog baie en goeie tye met ons sal deel. *(Dit wys jou dat houtwerk seker 'n man kan jonk hou!-Red)*

Die aand was tot 'n groot mate gewy aan die bespreking van moontlike onderwerpe vir die program vir 2010.

We then had a discussion on the turned pieces that were made during the month. Interestingly enough, a good amount of balls were turned, thereby proving that by giving "homework" you can still entice members to do something special. Apart from the balls, we also had a fair amount of other beautifully turned pieces. It is especially encouraging to see how many of the newer members are delivering work of a very high standard.

Herewith a few examples of the turners' homework for the period under discussion:

At Smit demonstreer hoe om 'n groot stuk te begin.

A shallow bowl, with a beautiful grain pattern

Balls and bowls to chose from

More balls and real artistic pieces

A group of candle holders, produced by Steve Galinos. It is a pity that the carving and pewter work do not come into its own on this photo.

And this is Willie de Wet's unique Australian toy! It is believed that all of us would like to put this on our X-mas shopping list. Unfortunately it seems as if Willie is the only one capable of convincing his wife that a machine like this is a must have for any turner!

Jack Munting gave a bit of a talk on the evaluating (judging) of turned work. From the rather in depth discussion that followed it was clear that this is a topic that everyone can associate with, although the emphasis of what is important and what should, or should not, be included as criteria varies considerably. Jack has supplied the editor with list of criteria as we have it at present and as we may have it in future. Due to a lack of space, this will not be included in this *Tambotie*. We will try to insert it next month's copy so that all will be informed what to expect when you have your turned pieces evaluated in future. We

furthermore agreed that we will try to have about 2 meetings per annum at which we will have a formal evaluation of the homework. This is to make members used to work with the criteria and further to be able to determine whether the criteria is valid for the purpose they are intended for. We are rather sure of ourselves when we say that by getting the right evaluation process, we will be contributing towards the improvement of turning in general.

Cabinet makers

The purpose of the meeting on 14 November 2009, at Leon Wolmarans' workshop, was to discuss a possible programme for 2010 and to have a demonstration on the joining of band saw blades. Thirteen members attended, which was very encouraging.

It was re-affirmed that the main purpose of the group was to develop and enhance the skills and insights of its members through regular interactions with each other and with non-members on both group and individual levels. In order to achieve this, various actions were suggested, including:

- A commitment by members to make a piece of furniture that they themselves would find useful to have. (Even if such a piece is something very small) This should contain at least some skills-requiring components, such as a joints.
- A rough sketch of the proposed item should be brought to the January meeting.
- Have somebody, like Carel Louw, talk to us about chair construction
- Ask Steyn Grove and others to talk to us about the selection of wood and the design of furniture
- Arrange another visit to the Italian furniture factory

- Have someone demonstrate on Inlay work/Intarsia
- Klaas Coetzee will demonstrate the making of Rail and Stile panels
- A discussion on shop safety
- Encourage members to show their various woodworking aids and gadgets
- Encourage new, and older, members to make use of the numerous skills available amongst ourselves
- Discussion on finishing, including spray-on finishes
- Discussion on specifications of a home-made router table
- The making of various type of joints and showing the various home-made and commercial jigs available
- Make some simple examples of joints to show at next year's exhibition

Douglas ended the meeting by giving a very informative talk and demonstration on how to join your own band saw blades, using only the tools and bits and pieces available in most workshops.

Douglas demonstrates how easy and simple it is to join a band saw blade, making use of a bare minimum of tools.

Details of next meeting are:

Date: Saturday 9 January 2010

Time: 09h00 – 11h00

Where: Workshop of Brian Addis, 84
Christine Road, Lynnwood Glen (tel. 012 361
2756)

Programme:

- Discuss sketches/ drawings/ designs of members' furniture projects for 2010.
- Show and tell – discussion of woodworking problems and solutions.
- Decide on date, time, venue and programme for next meeting.

Exhibition 2009

This year's exhibition was very satisfactory indeed. For starters the entries were of a high standard and we had lots of it. (It is felt that we should try to get more furniture at future events, however this is a subject we will deal with as we go along.)

This year we had a lot of prizes that the spectators could win. **Just to show how fair we are, we want to point out that no member off the Woodworking Association of Pretoria won anything.** The winners were the following:

Lionel Soekoe: A Router course.

Henriette Mostert: A Router Course.

Johan Stadler : Stoomtrein model.

Bruno Bianchi: Gedraaide bak.

Roy Page-Shipp: Model vliegtuig.

Viv Martin: Wakis.

Een van ons lede het goedgunstig vir ons 'n stukkie geskryf oor sy indrukke van die uitstalling, en wel as volg:

HOUTWERKUITSTALLING - 2009 - MY INDRUKKE

In ons twintigste bestaansjaar was die afgelope uitstalling voorwaar 'n hoogtepunt. Sowat van besoekers het ek nog nooit beleef nie. Lede wat op diens was moes nogal bontstaan om al die navrae te beantwoord en besoekers rond te wys. Tereg het 'n besoeker teenoor my genoem hy sien en besef dat die uitstalling voorafgegaan is deur baie werk en ure se organisering waarby meer as net bestuur betrokke was. Die statistiek van die uitstalling sal seker soos 'n suksesvolle maatskappy se jaarstate lees. Dis 'n veer in die vereniging se hoed wat gerus met 'n groot stuk kaaskoek gevier kan word. Die kersie op hierdie kaaskoek is gewis die opmerking van 'n lid van 'n buurvereniging aan een van sy medeledes dat "hulle nog 'n ver pad sal moet stap voor hulle so 'n uitstalling kan aanbied".

Houtwerkuitstalling 2009 is nou verby en daar behoort nabetraging gehou te word. Ek kan met my bydrae afskop. Die positiewe aspekte wat vir my uitstaan is eerstens dat die publiek die datum en plek van die uitstalling met ons vereniging begin assosieer. Dit sal dus wys wees om dit jaarliks op dieselfde plek en in Oktober aan te bied. Dit gee ook aan lede voldoende kans om groot uitstalstukke te voltooi waarmee aan die begin van die jaar mee begin is.

Die tweede aspek is dat die publiek beslis ingekoop het en hou van die idee om saam met die uitstalling van ons handewerk, ook na demonstrasies van tegnieke en gereedskap te kan kom kyk. Dit het by al die besoekers byval gevind en talle navrae is aan die demonstreerders en die handelaars gerig rakende geskikte gereedskap.

Nog 'n aspek wat ek meen 'n pluspunt is, is dat houtwerk in 'n breër sin as net ons vereniging se werk, vir die publiek aangebied word. Daarmee verwys ek na die uitstalling van die houtsneegilde en die figuursaag-demo wat baie

aandag getrek en baie positiewe kommentaar uitgelok het.

Die teenwoordigheid en bydraes van die handelaars moet ook nie gering geskat word nie. Hulle stalletjies met al die geraas en gewerskaf skep 'n handwerk-atmosfeer en die produkte wat hulle vir die prystrekkings borg, is baie gewild. Nog 'n baie gewilde item is die verversings wat verkoop word. Sonder hierdie stalletjie verloor so 'n dag sy besondere eiesoortigheid.

Daarteenoor kan daar seker haakplekke en selfs tekortkominge genoem word, maar ek laat dit vir bestuur om self daarvoor te besin en vir volgende jaar se uitstalling uit te stryk. Maar op die keper beskou is dit 'n uitstalling waarop met trots teruggekyk kan word. Dit sal moeilik wees om hierop te verbeter.

Lou Coetzer

Just to have a bit of a record of what went on at the exhibition, a few photo's to give a graphic idea.

Die algeheel beste item op die uitstalling! Steyn Grove wys jaarliks dat hy 'n aanvoeling vir die prag van hout het en dan wys hy ook dat hy vaardigheid het wat ons almal nie bekore is nie. Wel gedaan, Steyn!

Andrew Bourke's piece that earned top honours in the turning category. We are especially glad that one of our "younger" members is lately consistently proving his mettle! Well done Andrew.

(Tot my verleentheid het ek nie 'n foto van Carel van der Merwe se stuk waarmee hy die Aanhouer Wen-trofee verower het nie. Ons wens jou nogtans geluk en sê jammer vir die oorsig!)

Nog 'n pragtige poging van Willie de Wet. (Wonder wat jy vorentoe met jou nuwe draaibank gaan doen.)

Pieter Nel met sy tafel vol speelgoed

Keith Jones met 'n gedeelte van sy produkte waarvoor hy verskeie goue en silwer toekennings gekry het.

Wie het gesê ons moet pepermeule draai? Met hierdie koffiemeul wys David Malan weer dat hy onafhanklik kan dink.

Ons dog nog die heel tyd Piet Smit maak die pepermeule! Charlie doen hier somer baie goed om diè mite die nek om te draai, en dan steun hy somer die regte span ook!

‘n Mooi laaiekassie van Sakkie Hattingh.

Met hierdie mooi en dienlike gereedskap-kis het Douglas Lock gewys wat mens van afvalhout kan maak .

‘n Paar fotos van ons uitstallers se stalletjies. Sonder hierdie mense sal ons uitstalling baie minder aantreklik vir die publiek wees. Dankie nogmaals aan julle almal.

Hardware Centre het weer eens die uitstallers gereël. (Hierdie mense lewer nou reeds vir ‘n baie lang tyd uitstekende diens aan on vereniging. Lede kan maar gerus gereedskap ens by hulle aankoop- Red)

Voorsitters

Net vir die rekord, en vir die wat nie so lank aan die vereniging behoort nie, was dit goed gedink om 'n lys van die name van ons voorsitters hier aan te toon. Hierdie is eintlik

die mense wat deurlopend verseker het dat die vereniging op 'n gesonde voet gebly het en altyd goeie waarde vir die lede kon bied.

I am aware of the fact that over the years the chairmen sometimes experienced differences of opinion with committees or individual members. However, in the end all these different opinions were managed in such a way that the association only grew stronger. The first few chairmen had the responsibility to get the association going by getting aspects such as the constitution in place and to establish the format of all the events that are necessary to make our meetings worthwhile. Those who came a little later had to keep things in place and they had to prevent the association from stagnating by always getting new ideas off the ground. We want to thank each and every one of the following for this sterling effort. Without your leadership we could not have progressed to where we stand today:

Willie Marneweck.

Daan Badenhorst.

Roger Courtney.

Vlooi van Rooyen.

Chris Serfontein.

Ockert Swanepoel.

Lou Coetzer.

AT Smit.

Anton Louwrens.

Great Woodworkers

Over the last couple of months I have been reading about the demise of certain great woodworkers. As far as I am concerned the

most prominent of these are, James Krenov and Sam Maloof. These two went to the United States with their woodworking skills and passion and little else. They succeeded in doing such fine work that they actually became rich as well as world famous. (Do you recall the video we watched at one of our meetings, where Sam Malloof demonstrated his skill with a band saw while he made his trademark rocking chairs?) These gentlemen, and some others, were instrumental in getting woodworkers to think about sound designing as well as proper woodworking practices. These ideas have withstood the test of time and resulted in the exquisite furniture that came off their hands..

Met voorafgaande as agtergrond het ek aan ons eie vereniging gedink. Ons almal lees ‘n verskeidenheid oorsese boeke en kyk op die internet na wat die neiging van kenners van oor die wêreld is. Ons draaiers steek jaarliks kers op by die oorsese draaiers wat hier ‘n draai kom maak. Sommige van ons gaan ook oorsee en maak daar kontak met houtwerkers. Op hierdie wyse is ons deurlopend besig om ons eie vermoë te verbeter en teen algemeen aanvaarde goeie werk te toets. Die ding wat my egter pla is of ons genoeg gebruik maak van ons eie talent. Hiermee bedoel ek dat van ons eie lede, wat jaar na jaar toon dat hulle met die bestes van oor die wêreld kan saampraat, nie genoegsaam gebruik word, of bekend gestel word, om hulle ook in staat te stel om saam met die groot honde te kan blaf nie. Is daar nie ‘n manier waarop ons hierdie mense, en moontlik andere by ander verenigings bekend kan stel nie? Hoe kan ons verder verseker dat ons hul kennis, vaardigheid en passie vir houtwerk kan behou. Kan ons nie ‘n unieke Suid-Afrikaanse styl of soïets van die grond af kry nie? I really believe that we should get our own great woodworkers. I actually think that we already have them, they only need more prominence.

Next Year

NOTICE

The annual general meeting of Pretoria Woodworking Association will take place on Wednesday 27 January 2010 at 18h00, in the Jan Smuts Laboratory, Botany Department, University of Pretoria.

Agenda

1. Opening
2. Attendance
3. Apologies
4. Minutes of the previous AGM : Secretary
5. Matters arising from the minutes
6. Chairman’s report
7. Financial report : Treasurer
8. Amendment of constitution (**See proposed amendment below**)
9. Election of new Management Committee
10. Activities of the Association
 - Comments on activities during 2009
 - Suggestions for 2010
10. Closure

Proposed amendment

5. MEMBERSHIP

- 5.1 Membership can be attained by any person who is interested in woodwork and who has joined in the prescribed manner. Membership shall be restricted to members whose membership fees are fully paid up.

Membership can also be attained by scholars but without voting rights during meetings.

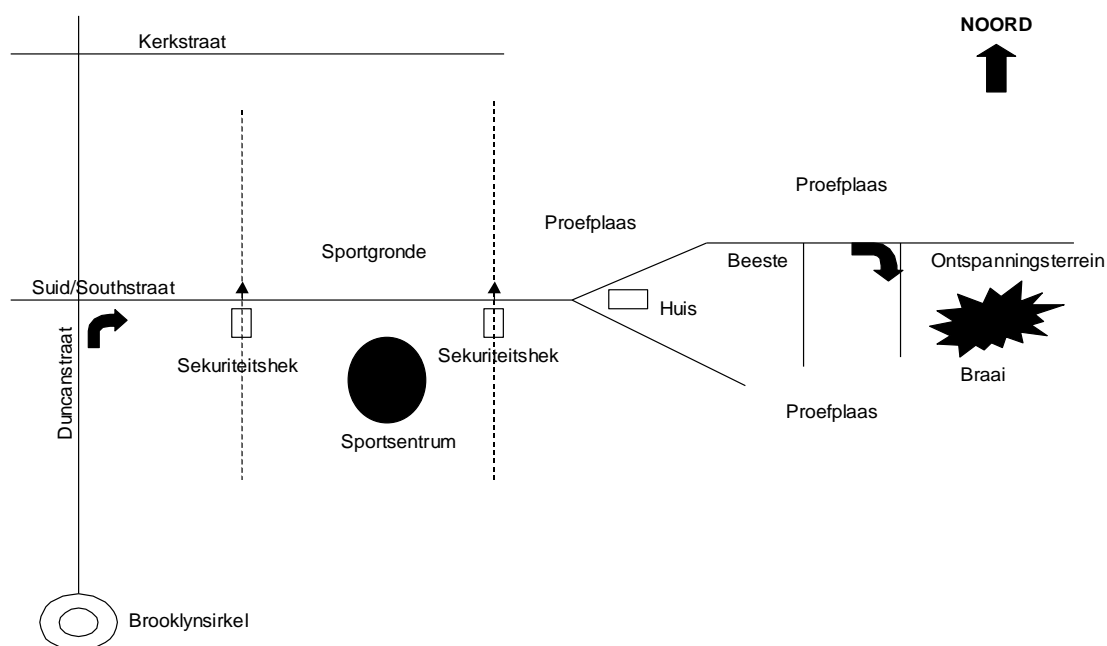

- 5.2 Membership shall be subjected to approval by Management.

5. LIDMAATSKAP

5.1 Lidmaatskap kan verwerf word deur enige persoon wat in houtwerk belangstel en wat op die voorgeskrewe vorm aangesluit het (sien aansoekvorm). Lidmaatskap is beperk tot lede wie se ledegeld ten volle betaal is.

5.2 Lidmaatskap is onderworpe aan die goedkeuring van die Bestuur.

Lidmaatskap kan ook deur skoliere verwerf word maar met die uitsluiting van stemreg tydens vergaderings.

KERSGROETE

Aan die einde van nog 'n jaar wil ek net al ons lede en vriende, waar u ookal mag wees, 'n baie gesëende Kersfees en 'n voorspoedige 2010 toewens. Mag die nuwe jaar sommer 'n klomp aangename ervarings op die persoonlike-, maar ook op die vereniging se vlak, oplewer.
